Ernesto Gama Jimenez

Senior Full-Stack Developer

ernesto.gama.jimenez@gmail.com +57 323 462 1392 Pereira, Risaralda, Colombia

SUMMARY

Seasoned full-stack web developer with over 10 years of experience specializing in Angular and Python development. Extensive background in building scalable, reliable, and maintainable solutions for both frontend and backend. Proficient in creating AI-driven features using Python frameworks and optimized Django queries. Strong expertise in React for dynamic and mobile-friendly user interfaces, following coding standards and Agile methodologies. Skilled in diagnosing complex issues, optimizing performance, and enhancing the scalability of distributed systems. Solid communication skills, able to collaborate effectively with business analysts, project managers, and technical teams. Adept at leading teams, performing code reviews, and delivering projects that enhance user experience and operational efficiency.

TECHNOLOGY SUMMARY

Languages:	JavaScript(ES6), Typescript, Python, C++, HTML5, CSS3, PHP
Frameworks and Libraries:	Angular, Next.js, Gatsby, Node.js, Express, React Native, Redux, RxJs, REST API, GraphQL, Ably, Laravel, Tailwind CSS, RabbitMQ, Kafka, TypeORM
Database Management System:	MySQL, MongoDB, AWS DynamoDB, AWS RDS, MS SQL, PostgreSQL, Azure SQL Database
IDEs and Tools:	Visual Studio Code, Terraform, Docker, Kubernetes, Jenkins, DevTools, Babel, Webpack, Storybook, Azure DevOps, IIS, Git Bash, PowerShell
Cloud Services:	AWS Cloud Services, Microsoft Azure, GCP
Testing	Cypress, Jest, Jasmin, Mocha
Methodologies:	Problem Solving, Full Stack Development, Critical Thinking, Leadership, Algorithm Design, Team-Oriented, SOLID, Agile (Scrum), Microservices, Test-Driven Development (TDD), Diagnosing, Business Analysts

LANGUAGE

English: Bilingual

Spanish: Native

PROFESSIONAL EXPERIENCE

Rootstack

Senior Software Engineer

09.2023 – 06.2025

Main achievements and responsibilities:

- Worked closely with cross-functional teams in an Agile environment, actively participating in all phases of the software development life cycle using Scrum methodology.
- Led the redesign of a client-facing portal, significantly enhancing the user interface and improving customer satisfaction by 35%.
- Designed and developed scalable backend systems using modern frameworks(Angularv17, 18) and database technologies, resulting in a 30% improvement in data query performance.
- Partnered with data science teams to implement AI-driven chatbot features, integrating intelligent automation into the customer experience through serverless architecture.
- Streamlined the development pipeline by establishing CI/CD workflows, accelerating feature deployment timelines and reducing release-related issues.
- Collaborated with UI/UX designers and stakeholders to gather requirements and deliver responsive, modular front-end applications hosted on cloud infrastructure.
- Optimized application performance through architectural improvements and system monitoring, contributing to a 30% reduction in user navigability issues.
- Played an active role in mentoring junior developers and promoting best practices through code reviews and collaborative knowledge sharing.
- Provided support in managing IT operations and ticketing systems, improving internal response times and service efficiency by 10%.

Used languages and technologies: Angular.js, NgRx, RxJs, Next.js, MaterialUI, Cypress, Jest,Python(Django, FastAPI) Node.js, Express, MongoDB, AWS,Amplify, AWS Cognito, AWS Lambda, AWS AppSync, AWS API Gateway, AWS EC2, AWS S3, AWS IVS, AWS CloudWatch, AMI, RabbitMQ, AI, Machine Learning, Depth Learning, Natural Language Processing (NLP), Git Bash, PowerShell

Teleperformance

Senior Web Developer

10.2021 – 08.2023

Main achievements and responsibilities:

- Led front-end optimization efforts, applying responsive design principles that improved mobile user retention by 40% and boosted overall user engagement by 30%.
- Designed and deployed a high-performance microservices architecture by using Angular in a test-driven development (TDD) environment, enabling the platform to handle over 100,000 concurrent users while cutting deployment times and server resource consumption in half.
- Drove the migration to a cloud-native infrastructure using a major cloud provider, introducing AI-powered analytics features that increased predictive accuracy by 35% and significantly enhanced system scalability.
- Engineered RESTful APIs to improve backend performance, reducing server response time by 40%, and integrated key third-party services to expand core platform capabilities and improve user experience.
- Built a real-time communication system with reduced latency and added intelligent summarization features, elevating the effectiveness of real-time interactions within the platform.
- Improved database efficiency through advanced query optimization and indexing strategies, achieving a 15% performance gain and reducing server load by 40%.
- Developed interactive data dashboards to deliver actionable insights, helping stakeholders make faster and more informed decisions.
- Streamlined application deployment and scalability by containerizing services and orchestrating infrastructure, resulting in better resource utilization and simplified system maintenance.

Used languages and technologies: Angular.js, NgRx, RxJs, Chakra UI, Redux, Cypress, Jest, Python(Django, Flask),Node.js, Azure CosmosDB, Git Bash,PowerShell, Ably, Kafka

Tech Mahindra

Senior Web Developer

11.2019 – 10.2021

Main achievements and responsibilities:

- Integrated third-party APIs including payment system and accounting system, ensuring seamless communication with external services.
- Designed dynamic and multi-browser compatible pages based on micro-frontend using Angular.js and TailWnd with Typescript.
- Python(Django) was Utilized on the backend to implement Microservices architecture, implemented intercommunication between Microservices using AWS SQS, along with the construction of APIs to enable efficient data exchange between the front-end and back-end systems.
- Implemented real-time notification using AWS SNS and Lambda, enhancing the overall interactivity and responsiveness of the applications.
- Contributed to database design and optimization, employing AWS RDS (PostgreSQL) database to ensure data integrity, scalability, and retrieval efficiency.
- Actively participated in Agile development methodologies, consistently meeting project deadlines and ensuring the successful delivery of high-quality software solutions.

Used languages and technologies: Angular.js, NgRx, RxJs, Chakra UI, Cypress, Jest, Python(Django, Flask) Azure CosmosDB, Git Bash,PowerShell, Ably, Kafka

Vydr.io

Web Developer

06.2016 – 11.2019

- Took part in the development of a high-performing single-page application (SPA) for the financial sector using Angular.js, WordPress, Shopify, and Laravel, achieving a 30% increase in user interaction and performance
- Optimized website load time by 35% using frontend optimization techniques such as code minification, image optimization, and CSS sprites, and improve SEO ranking, making it to the top 5 Google search results.
- Formulated and applied rigorous testing protocols using Jest and Cypress, reducing post-launch bug reports by 75% and ensuring high-quality releases, implemented CI/CD pipeline and version control using Git.
- Optimized database queries and interactions with MySQL, reducing database load by 40%, and implemented proper indexing, contributing to a 15% improvement in data retrieval performance
- Delivered responsive, user-friendly web applications on platforms like Shopify and WordPress, leveraging AMP to increase mobile traffic by 25% and implementing local and session storage for better user experiences.

Used languages and technologies: JavaScript, Typescript, Angular.js, NgRx, RxJs, WebSocket, SASS, Python(Django), Node.js, MongoDB, ASP.NET Core, WebAPI, MS SQL, AWS DynamoDB, AWS RDS, GraphQL, AWS, Azure cloud services, Jest, Mocha, SCSS, SASS, Babel, Webpack, Git Bash, PowerShell,

EDUCATION

Bachelor's Degree in Computer Science

Universidad de las Américas Puebla

04.2009-09.2014
